

## Middle School Students help to Clean Up!

Students from Manitou Middle School spent the afternoon helping to clean up trails in Red Rock Canyon. They volunteered to help as part of their Service Project Day on April 11<sup>th</sup>. The students focused their work on the main trails off the Highway 24 parking lots. Most of the litter picked up proved to be a tough job, as it mostly involved raking up the dog poop left alongside the trail. We appreciate these 25 students and 2 teachers helping with our open space.
